

Deep Dive Data Request

In support of quality improvement initiatives at your site, the Alberta Bone and Joint Health Institute, on behalf of the Bone and Joint Health Strategic Clinical Network, can conduct a deep dive analysis for your team. This might involve a patient-level data extract for your site on specific indicators or could involve a deeper investigation into site, zone or provincial trends through aggregate analysis.

Requester name:

Site:

Position/Role:

Email:

Date by which you need the request completed:

Please provide a description of your request:

Timeframe (data start and end date):

Year Quarter (e.g. 2020/21 Q2)

AHS Fiscal Calendar

Other:

Cohort - Check all that apply:
